Johnston Out, M. W. Co. In as Engineer for Treatment Project

By HARRY BARNES
Press-Record Staff Writer

In a series of fast-moving developments marked by an hour of adrenergic bickering, the Granite City Council Monday night killed a move to retain the East St. Louis engineering firm of David Johnston for a \$7.5 million sewage treatment project.

Then, in a matter of minutes, the council and Mayor Donald Partney resolved embittered differences of more than a month to agree on the appointment of an Indianapolis-based engineering firm — the M. W. Architects and Engineers, Inc. — to handle the planning and designing of a secondary sewage treatment plant and a system of interceptor sewers.

On a motion by Alderman Steve Basarich, chairman of the council's Pollution Plant Committee who had initiated the move to employ the Johnston engineering firm a month ago, the council voted 12 to 2 on roll call balloting to name the M. W. firm as consulting engineers for the treatment and sewer program.

The only dissenting votes were cast by Aldermen Charles Moerlein and Gerald Partney. Fourteen council members were present when Alderman Emerald Dawes absent because of illness.

Mayor Attempts Appointment
Solution of the engineering problem did not come, however, until after long and heated debate over repeated attempts by

Mayor Partney to appoint a firm handling the job will receive up to \$25,000 in engineering fees.

Granite City's engineering problem developed under an order by the Illinois Environmental Protection Agency requiring that the city install secondary sewage treatment facilities not later than Dec. 31, 1973, a deadline advanced two years under an intensified anti-water pollution program initiated by the state.

A program calling for construction of a secondary sewage treatment plant adjacent to the city's present installation and the construction of an interceptor sewer system has been advanced by Mayor Partney who maintains the plant and interceptors may be built with gov-

ernment and state funds totaling 80% of the overall cost if deadline requirements on preliminary programs and the filing of grant requests are met.

April 30 Deadline
A preliminary engineering survey for the installations must be filed with the federal government not later than April 30 to meet grant requirements. For this purpose, immediate appointment of an engineer was necessary.

The Pollution Plant Committee of the city council, headed by Basarich, undertook the job of recommending an engineering firm early this year after six firms sent letters to the city bidding for the work.

A number of committee meetings were held and on Feb. 22 two members of the Pollution Plant Committee — Basarich and Alderman Claude Green — submitted a majority report recommending appointment of the David J. Johnston engineering firm of East St. Louis to handle the new project, Alderman Charles Moerlein of Ward Five, an alderman-at-large whose office will be phased out of existence next month, filed a minority report urging appointment of Research Planning & Design Associates, St. Louis, which is now under contract to the city as its motor fuel tax consulting engineer.

Johnston, a controversial figure because of his work for the city in the early 1960s, won council approval by a slim ma-

jority, but in the next council session on March 1, Mayor Partney vetoed Johnston's selection. The council "filed" the veto and did not act at that time.

Gets Early Start
The battle in Monday night's session over the engineering appointment opened early in the meeting, immediately after City Clerk Robert Stevens completed presentation of communications. As soon as Stevens disposed of the last communication, Partney told the council:

"I want to submit to you the appointment of Sheppard, Morgan & Schwaab as the engineering firm to handle the engineering of the sewage treatment plant and interceptor sewers."

Basarich jumped to his feet. "Mr. Mayor," he said, "I can see you possibly appointing a consulting city engineer but not an engineer for the sewage treatment plant."

Nonn Takes Floor
Alderman Walter Nonn was on his feet as soon as Basarich sat down.

"Mr. Mayor," he shouted, "I call on the city attorney to read the statute that covers the vote on this." Nonn quoted a section and chapter number.

Leon Scroggins, city attorney, asked: "All of it?"

"Yes, all of it," Nonn replied. The statute pertained to the fact that two-thirds of the elected members of the council must favor a controversial proposi-

tion to carry, particularly in an instance involving the rejection of a veto by the mayor. The Granite City council now has 15 members. Ten votes are required to override a veto.

Scroggins read the section of the statute as requested by Nonn.

Alderman Paul Rutledge moved for concurrence in the mayor's appointment of the firm, opening the matter to discussion. Alderman Charles Moerlein who has championed the cause of the Research Planning & Design firm for the engineering job spoke at length in favor of that firm.

As Moerlein continued to speak about Research Planning & Design, Basarich called for a point of order, noting that Moerlein was speaking in behalf of a firm other than the firm involved in the motion for appointment.

Makes Point of Order
Partney noted the point to Moerlein and asked him to confine his remarks to the engineering firm concerned in the appointment.

Moerlein turned toward the mayor and said:

"You don't want to hear the honest facts, Sheppard, Morgan & Schwaab will only turn over the work to someone else. They don't have a sanitary engineer," he charged.

Alderman Sam Whitmer spoke up for Sheppard, Morgan & Schwaab, noting that "I think we should stick to someone

close to home, someone who lives here and pays taxes."

On a roll call vote for the appointment of Sheppard, Morgan & Schwaab, the only yes votes were cast by Aldermen Rutledge, Whitmer, Paul Schuler and Thomas Boker, the appointment losing by 10 to 4.

Mayor Partney immediately shot back:

"I now appoint Sverdrup & Parcel of St. Louis as the engineers to handle the planning and designing of the sewage treatment plant for Granite City."

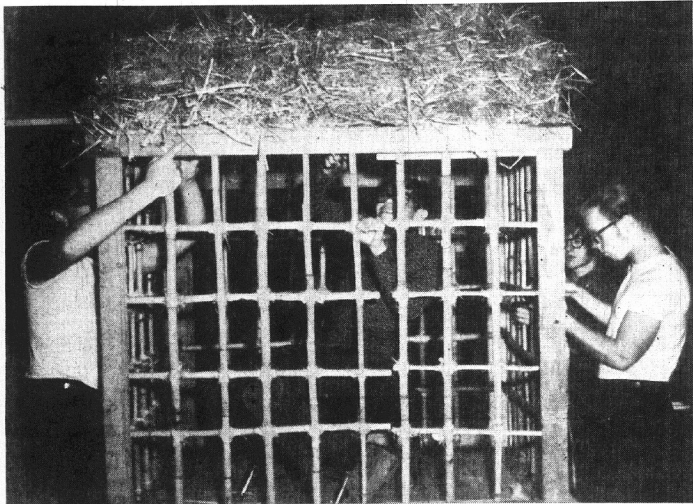

Basarich Protests
Basarich jumped up and said he thought the mayor was out of order.

"I think you should put the veto out of the way first before you all this," he said.

"But you didn't do it," the mayor replied. Ten minutes of argument followed over assertions that "this all could have been done in January." On a roll call vote for appointment of Sverdrup & Parcel as the sewage treatment plant engineers, the appointment was defeated 11 to 3. The "yes" votes were cast by Rutledge, Schuler and Boker.

Partney then announced the appointment of the engineering firm of Horner & Schiffrin of St. Louis, but after discussion similar to that given the other two appointments, the appointment was defeated by a 10 to 4 vote.

Fire Routs Six Venice Families

Fire of undetermined origin destroyed two homes in Venice Monday night, hospitalized two persons and possibly a third, damaged two other houses and routed six families who were made homeless by the blaze.

The two houses totally destroyed were at 1023 and 1024 Logan St., according to Venice Fire Chief William Meehan who said he had only sketchy information concerning two persons

who were taken to St. Elizabeth Hospital for treatment as a result of the fire.

Venice firemen answered the alarm at 8:58 p.m. using both of its pumper trucks. Upon arriving at the scene, Venice raised Madison firemen for assistance.

Damage was estimated at \$10,000 to the houses and \$2,500 to contents.

Cages to Stress Plight Of U. S. War Prisoners

By VALERIE EVENEDEN
Press-Record Staff Writer

It has been 6 years and 358 days since the first U. S. serviceman was imprisoned in Southeast Asia. At the present time there are 460 known prisoners of war and 1,150 men of the United States Armed Forces missing in action as a result of the war in Vietnam.

To focus special attention on the plight of prisoners of war and those men reported missing and believed to be prisoners in North Vietnam, South Vietnam, Laos and Cambodia, the U. S. Congress has declared the week of March 21-27, as "National Week of Concern for Prisoners

of War/Missing in Action." Mrs. Sandy (Noeth) Innes of Granite City, the wife of Lieutenant (jg) Roger E. Innes, a U. S. Navy flyer who was reported missing in action in Vietnam on Dec. 27, 1967, is coordinating area efforts in connection with the week-long observance.

Throughout next week, Quad-Cityans will get a vivid reminder of conditions in which American prisoners are known to be detained from a display of POW cages located at various points in the community. Wooden cages matching ex-

amples of the initial impact will be borne by lower and middle class families and their families," Rendleman testified.

Immediate effects of the tuition increase will be cruel and their long-range effects will be irreversible, the chancellor said.

"There will be many, many cases where young people will be prevented from getting the education they desire and society demands. Doors to advancement and opportunity will be loudly slammed in their faces, with dark probabilities of their being repudiated at any reasonably foreseeable time," he testified.

Rendleman said the increase would have its main impact on the middle class student at the Southwestern campus.

These students, he said, are hard workers; they study hard; they drive, usually some distance, to school. They are too busy to disrupt and demoralize. They were a solid force for courteous debate and campus calm at a time when other

Tuition Rise Cause of Concern

Tuition increases proposed for Illinois' state-supported universities represent a drastic reversal of time-honored policy toward paying for public education in the State of Illinois.

Dr. John S. Rendleman, chancellor of Southern Illinois University—Southwestern, said Tuesday:

"I am terribly concerned about both the immediate and the potential impact of the proposed tuition increase," Rendleman testified before the Senate Education Committee at Springfield.

"To ask the student and his family to pay one-third of the cost of his instruction is a drastic, radical step away from the meaning of free public education on any level of reasonable expectation," he said.

The average tuition of all state supported colleges and universities was increased 60 percent last year and 88 percent this year, Rendleman said. The recommendation of the Board of Higher Education projects another 20 per cent increase. The chancellor said at SIU-Southwestern the tuition would be increased an additional 43 per cent.

"I submit that cost increases of this magnitude, hitting as they do on individual pockets, stand out like a very sore thumb in any context," Rendleman said.

Impact, Lies in Future
"We are now being carried on over-heightening waves that can only deposit public education on the shoals of injustice and disaster. Recognition of the general impact on the good of the state lies somewhere in the

future. The initial impact will be borne by lower and middle class families and their families," Rendleman testified.

Immediate effects of the tuition increase will be cruel and their long-range effects will be irreversible, the chancellor said.

"There will be many, many cases where young people will be prevented from getting the education they desire and society demands. Doors to advancement and opportunity will be loudly slammed in their faces, with dark probabilities of their being repudiated at any reasonably foreseeable time," he testified.

Rendleman said the increase would have its main impact on the middle class student at the Southwestern campus.

Marshall Smith, the board's legal advisor, said the ordinance includes the items in the state code plus others which are stricter. If adopted, it will take effect July 1.

The county would derive \$25,000 to \$30,000, Smith said, but the principle purpose of the (Continued on Page 4, Col. 8.)

Vandalism Reported
Roger Northland, 2800 Denver Ave., reported at 1:34 p.m. Tuesday that vandals shot BB pellets into a garage window and the front picture window at his home, breaking the glass.

The complaint charges that the firm is responsible for contribution to air pollution with emission from burning railroad cars in its salvaging operation. In announcing the filing of the case, William L. Blaser, director of the agency, said:

"A cleaner and safer environment is the right of every citizen of our state.

"Unfortunately, providing services people demand often contributes to pollution. Such conflicts on occasions have to be settled through legal action.

"The Environmental Protection Agency is and will continue to enforce our pollution laws to give the people of Illinois that quality of environment that they demand."

A hearing date is to be set in the near future.

The complaint charges that beginning about July 1, 1970, and continuing for each day, the company has operated the facility in such a manner as to threaten the emission of certain contaminants in the environment.

It stipulates dates of violation this year on Jan. 2, 4, 5, 8 and 19, and Feb. 22 and 25.

The agency is seeking an order directing the company to cease and desist the violations and for the assessment of penalties up to \$10,000 for each of the alleged violations plus up to \$1,000 for each day violation continued.

Earl's Discount Store Grand Opening Is Set

A grand opening program to officially mark the moving of Earl's Discount Store to larger quarters at 19th Street and Cleveland Blvd., will be initiated at 9:30 a.m. tomorrow, Earl Harris, owner, announced today. Special sales will be a feature of the grand opening, Harris said.

The discount store now is located in the building formerly occupied by the Tri-City Grocery. It provides three times the space that was available in the former Army-Navy Surplus store, which previously was operated across the street at 1200 Niedringhaus Ave., Harris said.

In addition a 28-car parking lot adjoining the newly-occupied quarters will furnish ample off-the-street parking space for customers.

Harris operated the surplus store at 1200 Niedringhaus Ave. for 20 years.

"I feel downtown Granite City is the finest shopping area in the Quad-cities," Harris said. "The success of my old store indicates this, and I do appreciate the customers who over the past years have made possible this new and larger store."

The new store features expanded sporting goods, automotive and houseware lines.

Gary Hoggatt will manage the store and Al Woods, will be assistant store manager and the manager of the expanded automotive parts department.

Madison Unleashes Attack Against Unleashed Dogs

Madison city aldermen are reviewing recommendations made by a special aldermanic committee to curb the number of stray and unleashed dogs roaming the community, a condition described by Mayor Mike Sasyk as "rapidly becoming a very serious problem."

Alderman Richard Kismar brought council members' attention to the dog problem Tuesday evening when he asked to enter a statement into the record relating to stricter enforcement of the city's current dog ordinance.

His remarks were emphasized by several recommendations, presented by Alderman Mike Sikora, which resulted from a committee's study of various conditions pertaining to animals within the city limits. No action was taken on Kismar's request that strict enforcement of the present dog ordinance start Saturday, but his statement, including a review of the current statute, was noted.

Commenting that "probably all aldermen in the room have had the same problem with people calling and complaining about dogs running loose," Alderman Kismar stated, "I know we have the two best humane officers in the area and they need to be complimented on the job they are doing."

"These men have turned a part-time job into a full-time job with the hours they put in. I believe it's only a small group in town who disregard our police department and the dog ordinance and are causing the trouble," he continued.

The alderman noted that the present ordinance provides that owners of all dogs over the age of three months must pay an annual tax of \$1, payable before May 1; that it is unlawful to permit any dog to be on a public street, sidewalk, alley or similar place unless the animal is wearing a collar attached with a license tag, and all animals must be leashed and in-culcated against rabies unless confined in an enclosed yard.

Dogs Impounded

Alderman Kismar reminded Madison residents the present ordinance calls for any dog running at large to be impounded by the city humane officer and, if not claimed within five days, to be disposed of as prescribed. Dogs picked up may be redeemed under the present statute on payment of \$1, plus license tax fee if unpaid.

Changes in the ordinance, proposed by the aldermanic committee, included an increase fee from \$1 to \$3 for impounded animals; higher license fees for female dogs; fines for persons mistreating animals; precise definition of the leash law; city-wide rabies inoculation of all animals; and written reports completed by the police department on complaints made by residents.

In its report to the council, the special study committee noted, "Numerous dogs run at large throughout the city. Many without collars with dog license attached. A few are leashed and none were observed with a muzzle."

"Some families chain their dog to a stake," the report con-

tinued, "the dog becomes restless, wraps the chain around the stake and becomes immobilized. Other dogs are not fed by their owners causing them to become vicious and noisy."

List Other Complaints

Other conditions found by the aldermanic committee during its investigation of the "dog problem," were "numerous residents making no effort to restrain dogs from barking, especially late at night and during early morning hours; dog litter found throughout the public ways of the city, creating health problems."

"Persons bitten by dogs; dogs attacking and killing other dogs when animals are running at large and unrestrained. Dogs following children to school areas; and failure to control female dogs, also were cited as causing problems."

Mayor Sasyk asked council members to carefully review the recommendations, adding others to the list of proposed changes and present the overall ordinance for review later this month.

New Products Sought For Castings Division

In its printed annual report, General Steel Industries this week noted a \$2,283,700 loss in the 1970 calendar year but forecast a profitable year in 1971.

Operations of the Castings Division have been "adversely affected in recent years by a decline in railroad freight car business," GSI President W. Ashley Gray Jr. reported. In view of the reduced demand for railroad products, it has "consolidated its manufacturing operations for more efficient production of steam turbine castings and other cast steel products."

Gray added that the Castings Division is making "a concentrated effort to identify new manufacturing possibilities and new product uses for a wide range of heat-treating, welding, machining and non-destructive testing facilities."

"Meanwhile, the main production thrust is being directed at the growing market for high-strength pressure castings for steam turbines and the manufacture of suspension systems for rapid transit and commuter cars."

McKendree Fund Drive Koff Dinner Monday

Dr. Eric N. Rackham, president of McKendree College, Lebanon, announced today that the kickoff dinner for the fund drive, "McKendree Faces the Future," will be held in Ames Hall Monday, March 22, at 7 p.m.

Chairmen, captains, workers, and others will meet for dinner and entertainment, to launch the campaign, Illinois Lt. Gov. Paul Simon will speak.

Parked Auto Struck

While attempting to turn into his driveway which was partially blocked, an auto driven by Rno Organ, 2036 Madison Ave., struck the rear bumper of the parked car of Della Bradley, 2313 Paul Ave., at 7:30 p.m. Wednesday.

VENICE FIRE DEVASTATION. The blaze this week destroyed a residence at 1032 Logan St. and damaged homes at 1034 Logan at the left and 1030 Logan at the right. Six families were routed.

MORE ABOUT Cages

act specifications provided by escaped POWs have been constructed by vocational students at Granite City High School and volunteer union men from the Carpenters District Council.

Measuring 36-inches high, 52-inches long and 41-inches wide, the POW cages with primitive straw roofs may be inspected by the public at Civic Park on Niedringhaus Avenue; First Granite City National Bank; American National Bank; National Bank in Madison; Granite City Trust & Savings Bank; and in five retail business firms in the Quad-Cities.

Cages to be Occupied
Mrs. Innes reported that next Thursday, Friday and Saturday, volunteers will occupy one or more of the cages to further emphasize the plight of imprisoned POWs.

In addition to the exhibition of cages, the public is being asked to write to leaders in the government of North Vietnam expressing concern for American prisoners of war and urging release of a complete list of names of all men held in North and South Vietnam and Laos.

The letters also should urge neutral inspection of all prison camps and the free flow of mail between the prisoners of war and their families.

Volunteers are seeking signatures on petitions and form letters also to be forwarded to the North Vietnamese leaders, Mrs. Innes said.

One local resident, David Clayton, having learned from a previous story about Mrs. Innes, called and asked what he

personally could do to assist in the campaign to gain release of American prisoners, the young woman said. "It is now going non-stop collecting signatures," she commented.

Mrs. Innes said most recent POW-MIA figures released to the public indicated that 378 U. S. servicemen are held in North Vietnam; 79 in South Vietnam; and three in Laos.

POW-MIA Figures
Men declared missing in action now total 482 in North Vietnam; 520 in South Vietnam; and 227 in Laos. The statistics, compiled by the Department of Defense, were received by Mrs. Innes within the past two weeks.

A radar interception officer aboard a 10-man aircraft, Lt. Innes had arrived off the coast of Vietnam on a U. S. aircraft carrier just five days before his plane disappeared on an overland mission 39 months ago.

Mrs. Innes has yet heard whether her husband was captured and taken prisoner of war. The couple was married in August, 1966.

Addresses to which local citizens may write urging release of all names of men held prisoners and humane treatment for POWs according to the Geneva Convention, are:

South Vietnam (Viet Cong) — Madame Nguyen Thi Binh, Lf. of Vietnam, 49 Avenue Cambodere, Verrieres LeBuisson, 93, Essonne, France (mailing costs 20 cents per 14 ounce air mail).

K. C., Shrine Benefit Event

Half Way House Seen For Retarded Adults

Tentative plans to institute a "Half Way House" for mentally retarded adults were discussed at a benefit dinner committee meeting Wednesday night at the Knights of Columbus Club.

The plan was introduced by representatives of the Granite City Association for Retarded and Parents Committee for Special Education, two organizations which will benefit from the first annual chicken fry and barbecue to be conducted April 18 by the Knights of Columbus in association with the Anad Temple and Tri-City Shrine Club.

The dinner, expected to attract more than 5,000 persons, will be held at the St. Elizabeth Parish dining hall and recrea-

tion area. Half of the proceeds will be contributed to the Shrine Children's Burns Clinic Transportation Fund. Tickets at \$2 for adults and \$1 for children are available from any K. of C. Shrine member.

Day-long entertainment, including shriner units and other local vocal and dancing groups, will be featured.

At the meeting were Mike Schuler, K. of C. chairman for the event; Thurl Jones, president of the Tri-City Shrine Club; John Korsog, K. of C. grand knight; Norman Kinder, chairman of the Parents Committee; Gene Tondre, director of the Association for Retarded; and M. E. Bartosik, publicity co-chairman.

Act to Expedite Unemployment Checks

Senator Sam Vadalabene (D-Edwardsville) and Representative Horace Calvo (D-Granite City) this week introduced resolutions in the Illinois Senate and House, respectively, to urge the Department of Labor to speed up the payment of unemployment compensation.

According to Senator Vadalabene he has received complaints that persons in Madison County area often have to wait three and four weeks to receive payment of unemployment benefits. He believed such delays were "intolerable" and "an unnecessary burden" on those who suffer enough hardship in being unemployed.

"The problem is that we do not know what is causing the delay," said Calvo. "It may be a paper work flood or the completeness of their determination of plugged channels, but it has to stop." Vadalabene added that in conversations with Unemployment Compensation officials he was told the difficulty is due to all claims having to be sent to Chicago for processing.

3 Hurt in Area Traffic Mishaps

Three persons were injured in separate accidents occurring in the Quad-City area, authorities reported this week. A total of 12 area mishaps was reported.

Rogert Rinks, 47, of 1310 Eighteenth St., complained of pains after his auto was struck in the rear by another driven by Walter A. Norton, 2432 Sunbury Ave., at 7 p.m. Wednesday at Nanook Road and Pershing Avenue. Norton was charged with reckless driving and Rinks was charged with driving without a valid license.

Randall W. Miller, 16, of 13 Shirlwin Drive, was admitted to St. Elizabeth Hospital at 6:20 p.m. Wednesday with injuries sustained in a motorcycle accident. His right leg, hand and arm were injured.

Phyllis Ryan, 25, of 2000 Richmond Ave., was injured when an auto in which she was riding, driven by Elizabeth E. Moore, 2006 Richmond, was struck from behind by a car driven by George Laktus, 4 Violet St., at 10:15 a.m. Wednesday at 2000 St. Clair Ave. She was treated at St. Elizabeth Hospital for neck pains and was released.

MORE ABOUT County

code is to update standards of some of the mobile home parks in the county.

It also was noted that the county has been unable to collect real estate taxes on the tracts, and too many personal property taxes have been delinquent more than 10 years.

Doherty Slough Control
A resolution to prevent construction in the Doherty Slough area without approval of drainage plans was adopted as the drainage and flood control project is to be started there in mid-April by the Illinois Division of Waterways.

Another resolution increasing landfill inspection fees from \$5 to \$10 was placed on first reading.

The board considered seeking amendments through the Legislature of dog control and licensing statutes for counties with populations of 200,000 or more. Paul Riebold, rabies control committee chairman, estimated that 40,000 to 80,000 dogs inhabit unincorporated areas of the county to the detriment of livestock and other animals on the board.

A recent comment by members of the County Building Commission that a building to store refuse in counties may cost \$300,000 brought strong objections by some members of the board.

Suitable Storage
It previously was estimated that suitable storage facilities could be erected on county-owned land at a cost of \$40,000, and it was noted that a county in Texas constructed a similar building for \$25,000. A strand steel building is being considered. The building commissioners are scheduled to meet March 26.

A move to censure Smith for filing a battery complaint against Robert Zitt, Wood River Township assessor, offered by Wayne Bridgewater, was defeated. Zitt and Supervisor Roger Elbe were in a minor fracas during a township meeting. Elbe said he had nothing to do with filing the complaint.

In other business the board:

Approve Purchases
Purchase a food transport truck for \$3,556 and furniture for \$18,802, all for the new County Nursing Home; an intercom system for the circuit clerk's office for \$2,400, a printer-reader for the recorder of deeds office for \$3,430, a 1971 pursuit car to replace one destroyed in a recent fire when it was shot at a \$1,487 cost to the county.

Awarded a contract to Drda Electric Co. to rewire the first floor of the courthouse in Edwardsville on a low bid of \$30,250, and added \$10,250 to the budget for the purpose.

Authorized calls for bids for a van for the sheriff's department for carpeting and linoleum for the county clerk's office and for an insurance consulting firm to consolidate coverage on all county buildings.

MORE ABOUT Fire

ently started at 1032 Logan St., occupied by Mrs. Rosie L. McGee and daughter, and spread to the neighboring home at 1034 Logan, occupied by five families.

Whipped by high-winds, the blaze scorched the adjoining house of Jacob Young Sr. at 1030 Logan St. Young owns the property at 1032 Logan. The fire also damaged another house at the rear of 1030 Logan St., firemen reported.

Those living in upstairs and downstairs apartments at the 1034 Logan St. address included Mr. and Mrs. Sylvester Bolden, Fred Harris, A. C. Butler, Mrs. Ola Harris and Mrs. Murphy Haywood and daughter. "I was in bed asleep when I heard people yelling 'fire,'" the house is on fire," I woke my wife and we got out fast," Sylvester Bolden said. The Boldens lost most of their possessions as did other occupants of the building.

Most of those made homeless by the blaze have applied to the Red Cross for aid.

Man, Girl Treated

Charles McCoy, 89, of the 1032 Logan St. address was taken to St. Elizabeth Hospital after he was overcome by smoke during the fire, and Paris Scott, 4-year-old daughter of Mary Ann Scott, St. Louis, also was hospitalized for first and second degree burns to the right side of her face.

Both were treated at the hospital and McCoy was transferred to the Centerville Township Hospital. The young girl was released from the hospital after treatment.

A third person, Eugene Bell, 42, of 1227 Calhoun St., Venice, was treated at St. Elizabeth Hospital at 9:30 p.m. for pains and a burning sensation to the eyes, but Meehan said he had no record of a third person requiring treatment because of the fire.

Meehan said he was told that an elderly person had been taken to the hospital while his department was battling the blaze, and that he also had been informed that a small child had been treated. He said he did not know of the child's injury. Bell was released from the hospital after treatment.

John Scroggins, 55, Dies in Hospital

John Arthur Scroggins, 55, of 1710 Fourth St., Madison, died at 6 p.m. Tuesday, at St. Elizabeth Hospital.

Scroggins was born in Bolivar, Mo. and had lived many years in Madison where he operated Art's Refrigeration Service. He was a member of the Madison Baptist Church and the Knights of Pythias, Granite City Lodge No. 606.

He is survived by his wife, Mrs. Zelma Scroggins, a stepson, B. J. Taylor of Raleigh, N. C.; a brother, Donald Scroggins of Morrisville, Mo. and his mother Mrs. Lucy Scroggins, also of Morrisville, and three grandchildren.

Funeral arrangements are listed in today's obituary column.

BRUCE HAWKINS

Hawkins Heads DeMolays Here

Bruce Hawkins, son of Mr. and Mrs. Raymond Penn, 2325 Miracle Ave., was elected master counselor of the James Stuart Chapter, Order of DeMolay, at the chapter's regular meeting at the Masonic Temple Tuesday night.

A senior at Granite City High School, he is a member of the school band and the band letterman's club. He is a member of the Church of Christ, 2130 Clark Ave., where the DeMolays and their families will attend the 11 a.m. service on Sunday to climax International DeMolay Week.

Other officers elected were Steven Ebrecht, senior counselor; David Ledbetter, chaplain; and Paul Miles, treasurer.

Elected and appointed officers will be installed in a public ceremony April 20, when the 1971 DeMolay sweetheart will be crowned.

Nominated for DeMolay sweetheart were Vicki Patterson, Denise Lewis, Patricia McKay and Debbie Barham. The sweetheart will be presented informally at the chapter's next meeting April 4.

Activities of DeMolay Week were discussed. "Environ-act" is the new word of the 1970s for DeMolay; it stands for "environment action," which all DeMolay chapters and members are being urged to consider.

The program is being launched with the 1971 DeMolay Week observance. Posters giving the theme will be displayed throughout the Quad-Cities; the original shipment was lost in the mail and a second shipment was received late Tuesday afternoon.

Venice Youth Jailed Under \$40,000 Bonds
Charles Baker, 18, of 1221 Calhoun St., Venice was held in the county jail at Edwardsville yesterday following his arrest in Venice Monday afternoon on two charges of rape.

Venice authorities said Baker was arrested near his home at about 3:30 p.m. Monday by officers John Crook, Farris Smith and Bill Reed. Bond of \$20,000 in each case was fixed in misdemeanor court Tuesday and Baker was transferred to the county jail.

Activated Carbon Keeping Local Water Supply Pure

Activated carbon, which is being used in place of sand in the filtering process, has aided water purity in the Quad-City area, Granite City Rotarians were told at their weekly luncheon Tuesday by Glen Thornburg.

A Granite City resident, the speaker is vice-president and assistant division manager of the American Waterworks Co., owner of the East St. Louis & Interurban Water Co.

An "early warning system" monitored by the Coast Guard is giving greater advance notice of barge leaks and other incidents affecting the local water system, Thornburg said.

Refineries Regulated
In addition, health officials are taking a direct role in determining the rate at which oil refinery effluents can be released into rivers, the club was told.

Estimating the per-ton cost of carbonated beverages at \$2.10, beer \$4.00 and soda \$6.14, Thornburg said the tonnage price of water in Granite City is 30 cents.

He also presented a motion picture, "The Joy of Water." Distinct Meet, Chill Day
He was introduced by William Mehl, President John Polson presided and called attention to the 1971 annual conference of the Rotary District 646 April 16-18 at SIU-SW.

Edward Kellogg, Chamber of Commerce manager, and City Clerk Robert Stevens were introduced as new members of the club.

Plans were completed for the annual Granite City Rotary "chill day" next Tuesday, March 23, at the YMCA. Hours will be 11 a.m. to 1 p.m., and

SIU Trustees Meet at
Southwestern Friday
The Southern Illinois University Board of Trustees will hold its March meeting tomorrow at 9:30 a.m. in the International Room of the University Center, at the Southwestern Campus.

Two of the three members newly appointed by Gov. Richard Ogilvie and confirmed by the Illinois Senate are expected to attend the meeting. They are Harris Rowe of Jacksonville and Dr. Earl Walker of Harrisburg. The third appointee, Edwin C. Berry of Chicago, is out of the country, according to the assistant board secretary, Alice Griffin.

The new members replace Lindell Sturgis of Metropolis, Melvin Lockard of Mattoon and F. Guy Hitt of Benton, whose terms expired in January, 1971. Michael Bakalis, state superintendent of public instruction and who is an ex-officio board member also is unable to attend, Mrs. Griffin said.

Items on the March agenda include transportation and parking recommendations for the Carbondale Campus; sidewalks, parking lots and a boat dock for the Southwestern Campus; recommendations for award of bids for an office and classroom building at the Vocational Technical Institute; and personnel changes for all campuses.

Five Arrested on Disorderly Charges

Five people, including three juveniles, were taken into custody at 3 a.m. Wednesday, on the 16th Street parking lot of Granite City Steel Co. when police responded to a call from a plant guard. All were charged with disorderly conduct.

Those booked included Shely Bahle, 19, of St. Louis, who pleaded guilty to a disorderly charge Wednesday and was released on payment of a \$25 fine. Chester Ward, 23, of St. Louis, booked on the same charge, was to appear in magistrate's court yesterday.

Two youths, 14 and 16, also pleaded guilty Wednesday morning to disorderly conduct and were released on notices to appear, as also was a 16-year-old girl who did not enter a plea.

Driver Charged With Leaving Accident

Lacey L. Randolph, 50, of 2805 Adams St., was ticketed on a charge of failing to do duty upon striking an unattended vehicle at 1:30 a.m. Wednesday, after the auto he was driving struck and damaged a parked car owned by Mark H. Wehrmeyer, 2555 Washington Ave., according to police.

Police said Randolph drove out from an alley, headed north on Washington Avenue, swerved to the left and struck the parked vehicle on the opposite side of the street. The driver left the scene, police stated.

County Strikes Back On New Airport Issue

A resolution seeking the transfer of non-training operations from Fort Leonard Wood, Mo., to the Granite City Army Depot and Scott Air Force Base was adopted Wednesday by the Madison County Board of Supervisors.

The document, introduced by Harry Briggs, Nameoki Township supervisor, is aimed at top Missouri officials for their efforts to persuade federal authorities to select a site in Missouri rather than Illinois for the new major metropolitan airport.

The board also went on record favoring and urging an Illinois location for the airport. In his resolution Briggs said "it appears that major legislators from Missouri are directing efforts toward building Missouri's economic growth at the expense of the Illinois portion of the metropolitan area."

He charged that federal projects have been increasingly obtained for Missouri to the extent of becoming the base of Sen. Stuart Symington's last political campaign, and this included continued funding for the seemingly consistent inefficient operation of Fort Leonard Wood.

Copies of the resolution are going to Gov. Richard Ogilvie, all state and federal legislators from Illinois, the secretary

Disorderly Charge

Phil J. Mackin, 30, of 2150 Washington Ave., was arrested on a warrant charging disorderly conduct at 1:20 a.m. Wednesday at Niedringhaus and Iowa avenues. He was released on payment of \$25 cash bond to appear for a hearing at 10 a.m. March 24.

WARRIOR FANS by the hundreds helped fill the Lantz gymnasium at Eastern Illinois University, Charleston, Tuesday night. They had high hopes but the high-reaching Paris Tigers eliminated Granite City 77-48 in the first-round game of the "sweet 16" state tournament.

SCORING LEADERS at Charleston. Terry Ripka (30) of GCHS tries a shot from near the basket and at right is Paris' all-state Otho Tucker (33). Guarding Ripka is Geoff Wiggins (51) of Paris.

TOUGH TIGER DEFENSE frequently frustrated the Warriors Tuesday as they were eliminated by Paris in the "super-sectional" game. Brad Farnham (55) and a teammate double up on a GCHS marksman while another Tiger waits under the goal for a possible rebound.

Paris Players Shoot, Rebound Like Tigers to Polish Off Warriors 77-48, Rank Among State Meet Favorites Along With Benton, Thornridge

An excellent small team can sometimes beat a good big team. But the tall Paris Tigers gained an early lead and then proved unstoppable before a crowd of 7,000 Tuesday night at Charleston, defeating by 77-48 a slightly up-light Granite City High School quintet which found itself outgun, outshot and out-rebounded.

The eight super-sectional results left these state quarter-final pairings tomorrow at Assembly Hall in Champaign: 12:15 p.m., Benton (38-1) vs. Oak Lawn (28-2); 1:45 p.m., Springfield Lanphier (23-6) vs. Rockford Boylan (23-8); 7 p.m., Kewanee (23-5) vs. Thornridge of Dolton (28-1); 8:30 p.m. Paris (30-0) vs. Danville (25-6).

Victors on Friday will collide in semifinal games Saturday afternoon, followed by the third-place contest at 7 p.m. that day and the first-place game at 8:30 p.m. Saturday, Channel 11 will telecast all the Saturday competition.

Nashville, Chicago Ousted

Favorites include Benton, which stopped Nashville 60-52, and Thornridge, which defeated Chicago Harlan 73-63.

Other Tuesday winners were Kewanee 60-50 over Quincy Catholic Boys, Lanphier 81-68 over Peoria Woodruff, Boylan 64-54 over Elgin Larkin, Oak Lawn 68-56 over New Trier East and Danville 62-61 over Normal University High.

Paris, which won state titles in 1943 and 1947, may well join Rockford, Centralia, Freeport and Springfield as three-time champions, many fans were convinced after the Tigers' terrific performance Tuesday.

Mount Vernon and Decatur lead with four Illinois championships each. Only six schools have finished a year unbeaten, including Collinsville in 1961.

But the talent on the current Paris squad is regarded as sufficient to make possible a 33rd state titleholder by Saturday night.

The Tigers battered their Friday foe, Danville, by 26 points during the current season.

Three 6-4 Starters

With all-state 6-6 Otho Tucker starting at guard and 6-6 Brad Farnham and 6-6 Geoff Wiggins up front, Granite City, now 2-9, might have been able to out-

Press-Record Sports

Page 8 Thurs., Mar. 18, 1971

score Paris if the Tigers had been a clumsy, uncoordinating team. But Bret Brown's brash squad did not win 46 of its last 47 outings by accident.

Brown himself was on the 1955 Paris team which reached the state meet first round.

With 5-10 Rick Gosnell scouting past Granite City's passing zone defense and with taller Paris athletes using long passes to keep their fast-break offense moving, the Warriors' best hope would have been to hit nearly all of their early shots and then set the pattern of play.

Instead, after a 43 GCHS lead, Paris moved in front 7-4 and was never caught. Playing catch-up ball, the disciplined, ball-control Warriors had to adapt to the Tigers' helter-skelter style.

Fouls, Height Early Problems

Fouls began to plague GCHS in the first quarter, and substitutes entered the game. One of them, John Ireland, scored to bring his team within 13-9, but it was 29-9 when the period ended.

Shouldering their way to most of the rebounds on both offense and defense but skillfully avoiding foul calls, the Tigers boosted their lead to 24-10, 28-12, 32-13 and 34-15. After Warrior Kevin Dyer hit a field goal to make it 34-17, Paris closed out the nail with seven points for a 41-17 edge.

Larry Jones hit for Paris and a 43-17 score as the third quar-

ter began but Terry Ripka dropped in two goals and Bob Wiggins hit one to cut the lead to 43-23.

Rally Gains Momentum

Tucker hit a free throw but Wiggins netted a long shot for a 44-25 score. After a Paris goal, Dyer and Ripka scored to make it 46-29.

A Tiger free throw later, Mike DeRuntz hit a field goal for a 47-31 margin. Geoff Wiggins of Paris scored and Dyer hit, making it 49-33.

Gosnell made it 51-33 but Ripka scored and then stole the ball, DeRuntz cashing in a shot from the field.

This boosted the score to 51-37 and the Warriors miraculously had put themselves back into contention.

12 Straight Points Decisive

But the bubble burst, and it was Paris, not GCHS, which put in six straight points for a 57-37 third-quarter score and then six more for a back-breaking 63-37 advantage.

From that point, little could be done to reverse the outcome, but GCHS kept trying. Wiggins, DeRuntz and Ripka scored from the field as the score moved to 65-44, but soon it was 69-44.

Ripka scored to make it 69-46, but the Tigers roared to 72-46 and both teams switched to their reserves.

Two John Ireland free throws appropriately closed out the scoring in the St. Patrick's Eve encounter.

"We'll Be Back"

Warrior Coach Donald Deterding said with conviction after the game, and the Warriors feel the same.

Tucker finished the game with 26 points, followed by Brad Farnham's 22 and Jones' 14. For GCHS, Ripka totaled 16, DeRuntz 12, Dyer and Wiggins six each, Ireland five, Joe Wallace two and Chuck Kraus, one point.

The Warriors hit 21 of 60 shots

from the field and six of ten free throws to the Tigers' hot 30 of 56 and 17 of 22.

Paris led in rebounds 37-27, including 14 by Tucker, and GCHS led in fouls, 17-10, including four each on Kraus and DeRuntz.

GC Steel Dismissal Rejected by Air Board

The Illinois Pollution Control Board yesterday rejected contention of Granite City Steel Co. that the state's Environmental Protection Act is unconstitutional, and set April 6 as the date of a hearing of air pollution charges filed against the steel firm.

The hearing will be held in the city hall courtroom.

Constitutionality of the environmental protection act was challenged by the steel company in early January after the state filed charges of excessive air pollution against the firm in November 1970.

In seeking to dismiss the charges, attorneys for the steel company contended the charges had no constitutional standing because the pollution control act "abridges the right of any firm or person to due process of law."

An opinion written by Pollution Board Chairman David Currie said the steel firm "treated this as a mere hearing arguments that would destroy the Environmental Protection Act and the right of the public from pollution virtually impossible."

Interview 'Whiz Kids' Andy Phillip, Granite City High School and University of Illinois basketball great, will be interviewed along with other "Whiz Kids" prior to the championship game Saturday night.

Five burglaries, including the ransacking of a home from which \$340 worth of loot was taken, were among crimes reported to Quad-City authorities since Monday.

Three rifles, appliances and other items, valued by more than \$350, were taken early Wednesday morning by burglars who ransacked the home of Selby Pyles, 224 E. 24th Street.

Police said the burglary occurred between 12:30 and 1:30 a.m. yesterday, with the intruders entering the house through a rear door which had been left unlocked. The dwelling was thoroughly ransacked.

Taken were a .22 caliber automatic and rifle and a .22 bolt magnum rifle, valued at \$100; one 243 bolt magnum rifle, valued at \$100; electric can opener, \$25; two jack stands, \$15; Polaroid color camera, \$70; and costume jewelry, \$30.

Also taken were two electric shavers and a hair dryer for which no value was listed.

Sharon Case, 2202 W. 20th St., reported at 9:35 p.m. Monday that someone ransacked her apartment in a burglary. Entry was gained by breaking a basement window. Taken were a tape recorder, \$2 cash and \$4 in pennies from a coin collection.

Sharon Case, 2202 W. 20th St., reported at 9:35 p.m. Monday that someone ransacked her apartment in a burglary. Entry was gained by breaking a basement window. Taken were a tape recorder, \$2 cash and \$4 in pennies from a coin collection.

A break-in at the First Assembly of God Church, 24th Street and Grand Avenue, reportedly at 5:10 p.m. Tuesday, netted the theft of an electric typewriter, owned by L.B.M. Corp. and valued at \$40.

Police said the church was entered through an unlocked north entrance sometime Sunday night. The intruder pried open doors to the church secretary's office and the child care area, the report stated.

Apartment Ransacked

Waldo Curtis, 1857 Edwardsville, told police that burglars entered and ransacked his apartment during the week-

end and left with a man's gold wedding ring, a woman's diamond wristwatch and a steam cooker.

Panning was torn from the walls, the beds were overturned and several drawers were pulled out and their contents scattered throughout the apartment, Curtis said.

The McKinley Bridge office, 802 Main St., Venice, was broken into Tuesday night. Bridge Manager Henry McMullen reported that the only thing taken was a punch used to void bridge tickets.

Trailer Furnishings Stolen

A trailer stolen early Tuesday in Madison from the home of Buzz and Connie York, 1226 Madison Ave., was recovered by police at 5:45 a.m., stripped of all its furnishings including a television set and stove. Police found the trailer at 13th Street and Washington Avenue. Police said the trailer belonged to Dale Blyden, relative of the York family, who was visiting from Oregon.

Carl Bowers of Teletel, Inc., Streator, Ill., turned police at 3:25 p.m. Tuesday, that thieves removed about 140 feet of three strand copper cable from a truck belonging to his company while the vehicle was parked overnight at Shell Service Station, 20th Street and Madison Avenue.

A 10-year-old boy was arrested when he was seen leaving the rear window at the home of Elmer White, 2266 Elm Ave., at 8:05 a.m. Tuesday. Entry was gained through an unlocked front window. Nothing was missing.

MORE ABOUT

Johnston Out

with "yes" votes cast by Rutledge, Whitmer, Schuler and Boker.

In subsequent appointments, Mayor Partney named George Schanahan of Granite City as consulting motor fuel tax engineer (defeated 12 to 2), and named Edward Juneau as motor fuel tax consulting engineer (defeated 12 to 2).

After these appointments were turned down, the mayor appointed Schanahan as "public engineer" (defeated 12 to 2) and Juneau as public engineer (defeated 11 to 3).

Nonn broke in to say that "you are really cutting up a lot of good engineers here tonight... we're having a lot of hassle over something that could be settled real quick."

Rules Against Mayor

In subsequent discussion, Nonn and Basarich tangled with Scroggins over legal opinions as to whether or not the mayor's veto should have been acted upon the night it was delivered, March 1, or whether action still could be taken.

Partney contended the council could not act on the veto, that such action should have been taken the night he announced the veto, March 1.

Nonn, however, insisted upon an answer from Scroggins. "It is my opinion," Scroggins said in a ruling opposing the mayor, "that it can be done tonight."

After this ruling, Basarich moved for reconsideration of the veto action, which carried 13 to 1. Basarich then moved that the mayor's veto of the appointment of the Johnston engineering firm be rejected.

The council voted 12 to 2 against the motion, with Basarich and Nonn casting the only "aye" votes. Those voting against overriding the veto were aldermen Rutledge, Boker, Schuler, R. E. R. Schuler, J. P. Partney, William Dalls, Whitmer, Green, Moerlein, Clyde Boyd, Everett Morien and Roy Poulos.

With the veto upheld, Basarich told the council, "We have to do something. We have to have an engineer. Therefore the committee (Pollution Plant committee) has another recommendation to make." Basarich presented a motion to retain the M. W. engineering firm.

Mayor Approves

"I'll go along with that recommendation," the mayor said. Moerlein took the floor again to speak in behalf of Research Planning & Design Associates, and again was charged with being out of order by Basarich.

"I'm talking to the taxpayers," Moerlein told Basarich, "and this firm (Research Planning) has saved the taxpayers a lot of money."

Basarich referred to Moerlein as a "lame duck" alderman who will be out of office before work on the sewer project gets under way. A heated exchange of words between the two aldermen followed.

On a roll call vote, the motion to employ the M. W. firm carried 12 to 2 with the only "no" votes cast by Moerlein and Partney.

Mayor Partney called for a motion authorizing him to sign a contract with the M. W. engineering firm. The motion was made by Basarich and carried 12 to 2 with Moerlein and Partney voting no.

Three officials of the M. W. firm were in the council audience as action was concluded and Partney remarked to them that he would meet with them to consummate a contract.

Attending Meeting

Attending the meeting were Larry Ryan, of Granite City, design engineer of the firm's St. Louis office; Aaron Pierson, vice-president in charge of the St. Louis office, and Ray Haller, vice-president of the firm's Indianapolis office.

The M. W. engineering firm is based in Indianapolis and has offices in St. Louis, Macomb, Ill., and North Manchester, Ind.

Ryan told the Press-Record that his office is confident it can complete a preliminary report of the sewer treatment plant and interceptor sewer program in sufficient time to meet the April 30 deadline requirement.

A capacity audience is expected tonight as the annual "Winter Carnival" is presented by the Granite City Park District at 7:30 p.m. today in Memorial Gymnasium at Granite City High School.

Now in its eleventh year, the carnival event affords youngsters a gala opportunity to display the numerous activities conducted in the park district's winter recreational program. Harold Brown, district superintendent, explained, About 425 park program participants will perform in the show.

More than 2,000 tickets have been distributed for the two-

hour-long entertainment. No admission is charged, but a ticket is required for admittance. Each child enrolled in the district's winter activities is provided up to 10 tickets for his or her family members.

Approximately 150 pre-school children will open the program with songs and pantomime under the supervision of Mrs. Ruby Mayberry and Mrs. Rosemarie Lindner, instructors. The 4-and-5-year-olds will sing "America" and "This Land is My Land."

Gymnastics, Tumbling, Gymnastic and tumbling skills will be performed by

Burnett Abandons Bid for Office

Eugene Burnett, 2243 Lee St., will make no active campaign for election as alderman of Ward One in the April 6 Granite City election, although his name will appear on the ballot.

Burnett, now an employee of the Safety and Education Division of the Illinois Department of Labor said there is a possibility that he would encounter a conflict of interest if he were elected alderman. Burnett said he is employed under the merit system, but that it is possible his work could conflict with his duties as alderman.

"This would be unfair to the people," Burnett said. "I have decided to make no campaign for office and I have advised my workers and supporters to vote for their choice of the other candidates. I do not intend to switch my support to anyone else."

Burnett is one of three candidates for alderman of Ward One competing for the office of Ward One Alderman. The others are Everett Morien, incumbent who is seeking re-election, and Leroy Mangiarichio, 505 Kirkpatrick Homes.

Madison Seeks Release of Land Held by State as ROW

The Madison City Council agreed Tuesday night to petition the Illinois legislature to release a 6.5 acre tract held for right-of-way highway purposes, located near the intersection of Bridge, and to dissolve a lease agreement with a local farmer who operates 154 acres of city-owned land in the same area.

In other action, the aldermen approved an addendum to a lease arrangement with Joseph Clark Sr., president of Diamond Plating Co., a firm located on Macaron Industrial Park, enabling the city to reimburse the city \$7,729 in land indebtedness through staggered payments over an eight-month period, starting in April.

Corporate Counsel John Githow explained the diamond plating firm owned the city monthly rental fees of \$3,865.

Immediate installation of street lights in three locations in Madison was approved.

Lights are to be installed in an alley in the 1600 block of Alton and Ewing avenues, between Fifth and Sixth streets; a location near the side entrance to the Madison Memorial Center, which will also illuminate a play area; and at Washington and Jefferson on the west side of the West Madison Recreation Center.

Approval was given for two major purchases for street department use—a refuse vehicle and pickup truck. Bids will be sought immediately to permit delivery by May, Mayor Mike Sasyk said, noting the last vehicle purchase was made in 1961.

Promotion of Probationary Patrolman Paul Bargiel to the position of patrolman in the Madison Police Department was recommended by the Board of Police Commissioners and approved by council members.

For November and December. The total amount will be paid in 12,000 monthly installments plus the regular rental fee (\$3,940) for seven months, with the balance in 12 payments amounting to \$729.

Abandonment of a strip of land, along a concrete roadway, extending between former Highway 66 on the south and Interstate 270 for which the right-of-way is held by the state for highway purposes, will be sought in a petition to the Illinois Senate and House.

The concrete strip is located between two large mounds of a landfill near the Chain of Rocks Bridge, Githow said.

Termination of a long-term oral agreement with the Louis Ciano family which farms 154 acres of property owned by the city was agreed to by the aldermen, who set Aug. 31 as the effective date for the land to be vacated.

Gardenaire Landscaping Field Day

The Gardenaire Garden Club held a field day Tuesday morning at the home of Mrs. Lawrence Markham. The "Landscaping" lessons on Rural Route Two, Gardenaire, were part of the community service rendered by the club through their Mini-Garden information Center established one year ago at the Library. Participants watched as John Habertier, arborist, and Charles Murphy, Tree service, of St. Louis, showed proper pruning methods for both trees and shrubs. Selective pruning was demonstrated as opposed to shearing which is a common, but less desirable, procedure. The "Landscaping" lessons on Rural Route Two, Gardenaire, were part of the community service rendered by the club through their Mini-Garden information Center established one year ago at the Library. Regular monthly horticulture displays are exhibited; the March feature is the subject of "Propagation." Mrs. A. A. Matlock Jr. is President of the Gardenaire.

Higher Board Assumes Broad Authority Not Yet Defined or Conceded--Rendleman

Illinois' proposed master plan for higher education assumes broad authority for the Board of Higher Education which has not yet been fully defined or conceded by the state's colleges and universities, Dr. John S. Rendleman, chancellor of Southern Illinois University—Southwestern, said Monday.

The chancellor's comments were made during a public hearing on Phase III of the master plan proposed by the Board of Higher Education. The hearing was held at the Holiday Inn at Sunset Hill.

Rendleman suggested the board address itself to more precise definitions of long-range lines of responsibility and functions of the Board of Higher Education staff.

The chancellor criticized what he called the "super-regulatory role" assigned to the University of Illinois, predicting such a role would develop tensions between the board and other state educational institutions.

"Any institution worth the salt of the taxpayers of Illinois is going to have to focus on being a first-rate university if it is going to productively execute its function as the kind of center suggested by the plan," Rendleman said.

Recognizes SIU-SW
The preliminary draft of the master plan recognizes the Southwestern campus as one of six "University Centers," but says the University of Illinois should "stand as a principal resource for the entire state system of higher education."

The chancellor attacked the concept of University Centers, and the implied broad powers of the board, saying "I hope that there is a clear recognition that a university is more than a central collocation of data and information to be preserved and disseminated according to necessities perceived and asserted from an even higher, more centralized source."

Rendleman said "paragraphs dealing with the long-range mission envisioned for our campus at Southwestern show little awareness of the highly industrialized nature of the area." He urged an academic emphasis on novelty weaves. Machine-washable, crease-resistant, 36/45" wide.

Old Story
"This area's staggering economy and polluted environment stand in sore need of all the concern and expertise a major academic resource can bring to bear. It must be made clear that the northern part of the state has not nearly the corner of the market on the state's problems as it appears to have on its resources. This inequity is, of course, an old story; it is said to see it perpetuated in the general drive of the master plan," the chancellor testified.

Rendleman said it would be a dereliction of the state's responsibility to "compound our agonies by projecting further undistilled limitations on our growth and aspirations, in the face of community problems crying immediately and desperately to us for aid in their solution."

The chancellor said the Metro-East area has already suffered long and cruelly from neglect and an imbalance in the distribution of the state's resources.

The master plan draft would delay approval of any advanced graduate program requests at the Southwestern campus until 1974.

Continued development of the School of Dental Medicine at Southwestern is advocated in the master plan.

The master plan draft limits enrollment at Southwestern to 14,300 by 1976. This includes 12,600 undergraduate students and 1,700 graduate students. Last fall the campus enrolled 13,700 students.

Rendleman criticized the board staff recommendation for development of an "academic common market." The chancellor said the "idea in the language of the plan seems far too attuned to the workings of a republic in which economic values are pre-eminent." Rendleman said higher education's primary devotion "must go to values of an excellence that can neither be articulated or justified in the parlance of the marketplace."

Cougar Golf Team Optimistic Over Upcoming 1971 Season

Harry J. Gallatin, coach of the Southern Illinois University-Western golf team, is optimistic about the upcoming 1971 season. And well he may be.

His Cougar golfers, posting a terrific 27-0 record in the 1970 season, will present a well-rounded squad with enough talent depth that no player is assured of making the six-man squad for any one of SIU-SW's 19-school schedule of matches.

The makeup of the squad could change each week, explained Gallatin, "because every golfer on the team can challenge, and match results will pick the ones who will play."

In the 1970 season, the team record of 27 victories and six losses was the best, percentage-wise, of all seven varsity athletic teams in the school's short history.

Last year, the golf team, along with the soccer squad of Coach Bob Guelker and the

baseball team of Coach Roy Lee, battled its way into post-season National Collegiate Athletic Assn. tournament competition in the first year in which SIU-SW teams were eligible to do so.

Gallatin, who inaugurated programs here four years ago and also served as basketball coach until this season, took over the golf team coaching duties when Bill Brick took a leave of absence two years ago to work on his doctorate. In addition to his duties as athletic head, Gallatin is also assistant dean of students.

A trio of outstanding golfers, Joe Perry, Larry Gilybert and Ed Kraft, were named by graduation. Back on the 1971 squad are the Cougars' No. 2, Mark Boyajian; Chuck Eckley, who played in the No. 3 slot; Jim Trotter, No. 5, and Pete Butkovich, No. 6.

A promising shot-maker, Mike Beckman, a transfer from SIU-

JIM TROTTER

MIKE BECKMAN

CHRIS CAREZZA

MARTY BAKER

Carbondale, has a very good chance of playing regularly, according to Gallatin. Beckman was No. 3 on the Saluki squad.

As the season nears its start with a trip south to Florida March 22, Gallatin ranked the personnel on his squad in the following order: Tom Kammann, Chuck Eckley, Mark Boyajian, Mike Beckman, Jim Trotter, Pete Butkovich, Tom Rudiger, Marty Baker, Rod

Wade, Bob Blariks, Tim Utecht, Chris Carezza and Dennis Erlich. Kammann, Baker, Boyajian, Butkovich, Eckley and Trotter are letter-winners. Belleville and Edwardsville players make up almost half of the 13-man squad. Kammann, Eckley and Boyajian are from Belleville while Blariks, Erlich and Utecht are from Edwardsville. Beckman lives in O'Fallon, and Carezza, an outstanding freshman soccer player, graduated from St. Louis' St. Mary's High. St. Louis County's McCluer High furnished the Cougars with Baker, a sophomore, and Trotter a senior. Wade is from Peoria,

and Rudiger lives in Lebanon. The Cougars' home course will be Sunset Hills Country Club.

Boating Fatalities Decline in Illinois

Illinois boating fatalities declined in 1970 for the third consecutive year despite a substantial rise in the number of registered boats, according to Kenneth E. Gruenewald, boating supervisor for the Illinois Department of Conservation.

In his annual report to Gov. Richard B. Ogilvie, Gruenewald noted that 38 persons died as a result of boating accidents last year, compared to 44 the previous year and 49 in 1968.

The number of registered craft increased last year by more than 10,000 to 207,000 as of Dec. 31, Gruenewald said. Registration has risen from 188,000 three years ago, and from 100,000 in 1960.

Meanwhile, boating deaths have dropped steadily from the 61 reported in 1960, Gruenewald said.

Record Improved
The deaths-per-boat record is even better than these figures indicate, since registered boats represent only a portion of the total number owned by Illinoisans. Gruenewald explained it is not necessary to license canoes, sailboats 12 feet or less in length, or rowboats, but the fatality figures include deaths which involved these craft.

The 38 fatal mishaps in 1970 were among 98 reported accidents involving 153 boats, the report revealed. Drowning accounted for 31 deaths and seven persons died of injuries. Two of the victims were children. Gruenewald's statistics also show:

Thirteen of the drownings were in May and all occurred between April and November.

There were seven drownings in June and four in July.

Life Preservers
There were no life preservers aboard the boats in 11 of the 31 drownings, and life preservers were available, but not used, in 19 others. A 10-year-old boy drowned because of an inadequate number of preservers.

Overloading of boats led to eight drownings and falling overboard caused five others. Fifty-eight boats were injured in the 98 accidents, and property damage was estimated at \$190,828.

Collisions with other vessels accounted for 29 of the reported accidents, 19 were due to capsizing, 14 resulted from fuel fires or explosions, and in 10 cases boats were hurt or drowned when they fell overboard.

Weather Conditions
Weather conditions apparently played little part in the accidents. It was clear and calm when 48 of them occurred, cloudy and calm on 14 occasions, and clear-though choppy on 10 took place.

Almost half of the accidents happened in Lake, Cook and Madison Counties — which reported 17, 15 and 12, respectively — and 77 of the 98 mishaps occurred on small bodies of water. Rivers were the scene of 54 accidents and there were 23 on small lakes. The state's larger lakes, including Lake Michigan, reported 10 or less for the year.

Single boats were involved in 49 accidents and two craft were involved in each of 35 others.

Track, Field Hopes High for Cougar Squad

Southern Illinois University-Western's track coach, Jack Whitted, who guided the Cougar track and field performers to a 5-5 record in their inaugural season last year, is looking optimistically to the start of the season.

The Cougar track team will open its season March 27 in a meet with Washington University in St. Louis.

Most of Whitted's optimism grows out of the fact that 12 of the athletes on his 42-man squad are returning lettermen and, of that total, only four are seniors: hurler Ken Alepra of Gillespie, senior two-miler George Combs of Edwardsville, quarter-miler Charles Vander Griffie of Hawood and Jack Klambak, triple jumper of Edwardsville.

Says Whitted, "Alepra was our workhorse in the hurdle events in our beginning season and now Granite City's Mike Allen, a freshman, should give us added strength in these events." Whitted pointed out that Allen took a third in the Illinois state high school track meet last spring in the low hurdles, a third in the Golden West track meet in the 200-yard intermediate hurdles and a fifth in the low hurdles last summer in California.

A lack at the roster gives another strong hint as to the reason for Whitted's optimism for not only this season but in years to come. The bulk of his performers are from the metropolitan area, an area which has come to the front in recent years.

Whitted pointed out that "it was Alton and East St. Louis High which broke the 50-year domination which Chicago area schools had held over downstate Illinois," and then added,

"if you'll notice those two schools' success has also helped to raise the caliber of surrounding school's track teams."

In addition to Alepra, Combs, Klambak and Vander Griffie, the other lettermen are: Mike Daech, Alton; Capt. Bruce Perry, Belleville; Dave Fischer, Hazelwood; Jimmy Lynn, Jerseyville; John Mennemeyer, Bethalto; Roy Wuthof, Cobden; Dave Redden, Roxana; and Tom Terrill, Springfield Griffin High.

Others on the squad from this area are freshman Daniel Burris of Granite City, 800-yard run; freshman Ken Elliff of Granite City, 440- and 800-yard runs; sophomore Phillip Daniels of Venice, high jump; freshman Dennis McDuffy of Granite City, broad jump; sophomore Calvin Ratliff of Madison, 100- and 220-yard dashes; and freshman George Tyus of Madison, 100- and 220-yard dashes.

The track schedule: March 27—SIU-SW at Washington U.; April 9—SIU-SW vs. Illinois Wesleyan, Bloomington; April 16—Illinois College at Jacksonville, here.

April 21—Bradley University, Peoria, here; April 24—SIU-SW in the MacMurray College invitational relays at Jacksonville; April 27—SIU-SW in the Milliken U. triangular meet at Decatur, vs. Milliken and Olivett College.

May 1—SIU-SW vs. Iowa Wesleyan at Mt. Pleasant; May 4—SIU-SW vs. Principia College at Elsah; May 5—triangular against Blackburn and Greenville, here; May 15—SIU-SW in the Elmhurst Invitational Relays; May 22—NCAA Midwest Track and Field championships at Ashland College, Ashland, O. SIU's home track meets will be held at Roxana High's track.

Nader Protests Consumer Abuse as 'Crime Wave'

"There is an environmental crime wave in the U. S. just as there is societal crime on a radical wave," Ralph Nader said at SIU-SW this week.

Nader who is touring the area in an effort to destroy some of the myths concerning the environment, said that the individual citizen can make a difference in society in the areas of air pollution, and consumer abuse.

"People in our society are being subjected to harmful pollution without being able to fight back. We are being exposed against our will to this pollution and consumer abuse," Nader charged.

As an example of how private citizens are left helpless in fighting pollution, Nader cited the automobile industry. Nader charged that instead of installing more protective bumpers on automobiles, bumper guards were sold to protect unsafe bumpers. He showed by statistics that \$300 worth of damage could be done to car bumpers at a 10 m.p.h. level. "That has to be called looting in the streets—causing insurance premiums to go up."

Condemning gasoline pollutants, Nader said, "they put the lead in gasoline and the price of gasoline was increased... they took the lead out of gasoline, and the prices were again increased." To Nader, this is another form of what he calls "looting in the streets."

Law Does Nothing
Nader said that there was massive street violence of this kind. He said, "For breaking into a coin box a person can get two years in prison, but for destruction of millions of people's property, the law does nothing. Executives in the auto-

By Press-Record Staff Photographer

turning to food contamination, Nader said the country "was biologically obsolete in detecting its own hazards." How do you detect the mercury content in fish or the carbon monoxide count in the air as a private citizen, Nader asked.

Nader called for organization to oppose the silent majority by fighting the myth that citizens can't make a difference. "Anyone who is proud to be a member of the silent majority should resign from the human race," he said. Nader asked people to play the "citizenship game on off hours, and organize with professionals."

Patriotism is not reserved for singing and waving flags, "patriotism also means rolling up one's sleeves and organizing to build our own country," Nader said.

SIX 1929 UNCUT \$5 BILLS, worth about 12 times their face value, are among items of a First Granite City National Bank collection. Part of the collection recently was featured in a national magazine.

First GC Bank to Display Old Currency Collection

A valuable collection of currency owned by the First Granite City National Bank was brought to light this week after an article concerning a 1929 series \$10 bill, issued by the bank about 1931, was featured in the national magazine "Coin."

The bill was part of a private collection, but after publication of the article bank officials blew the "dust" from an old bank collection containing bills dating back to 1831 when the Granite City National Bank (established 1902) merged with the First Granite City Bank, and the newly formed bank began to issue its own currency.

The most valuable item in the collection is a block of six \$5 bills, series 1928, still uncut. It was the policy in the 1920's and early 1930's to ship sheets of bills to the issuing bank and have the banks cut them into individual bills. The six bill sheet is valued between \$400 and \$500 as a collectors item. Also in the collection is a \$10 bill of the same series issued by the bank shortly after the merger. Its value has not been determined.

Optometrists Offer "Eye-Q" Tests Here

Don't be surprised this week if you find on your grocery counter or restaurant table a mimeographed sheet of questions titled, "What's Your Eye-Q?"

The quizzes are part of the "Save Your Vision Week" observance now being held by the local chapter of the Illinois Optometric Association.

According to Dr. Leo A. Roman, association chapter president for the optometrists, as well as young people's and adult volunteer groups will deliver the quizzes to restaurants, supermarkets and service organizations.

"This is an all-out crusade to alert the public to good vision practices, especially our young people who can avoid a lot of problems later by following these simple rules," Dr. Roman pointed out. He added that the quizzes also are being distributed through local grade and high schools.

"This effort becomes important when you look at the statistics," Dr. Roman said. "It shows that 20% of young people of school age have some visual handicap. If uncorrected, that means a reading handicap which can mean the difference between success and failure in school studies."

Busy Schedule Here During DeMolay Week

First event of the International DeMolay Week this week for the local James Stuart Chapter was a regular DeMolay meeting on Tuesday, including election of officers. But a busy whirl of activities is continuing.

On Wednesday, DeMolays acted as mayor, city treasurer, city clerk, fire chief and police chief in Granite City. Today, DeMolays are acting as mayor, city treasurer, city clerk, comptroller, fire chief, police chief,

superintendent of streets and aldermen in Madison.

Legion of Honor members of the Egyptian Precinctory met for an obligatory dinner at the Elks Club in Belleville tonight.

On Saturday, the DeMolays will wash police cars for Granite City, Madison and Venice at the Madison city garage as a civic service project.

To Attend Church

On Sunday, March 21, DeMolays and their families are to attend the 11 a.m. service at the Church of Christ, 2130 Clark Ave. They are to meet at the church at 10:30 to assemble before attending the worship service.

Baseball practice was held Wednesday evening and bowling is set for Saturday morning. A class of candidates originally set for March 18 has been rescheduled for a special meeting on March 30.

In connection with their DeMolay Week activities, officers of the James Stuart Chapter went to Wood River to assist the George G. Golder chapter in conferring the initiatory degree on a class of candidates at the Wood River Masonic Temple.

Participating from Granite City were Paul Boyer, master counselor; Steve Ehrlich, master; Billy Mihl, junior deacon; Karl Ebrecht, junior steward; Bill Wittkamp, scribe; Ron Jones, Terry Barron, Mike Hickey, Robert Mueller, Dewey Obermeier and Keith Lee, preceptors; and Danny Jones and Tony Welch, accompanied by Advisor Meyer.

At their March District Four meeting at Highland, the DeMolays mapped plans for a Midwestern Leadership Camp June 27-July 3 at Potosi, Mo.

The district will hold a roller skating party in Belleville and DeMolay-Masonic Day at Annapolis, East St. Louis, in May. The district DeMolays are studying hunting and gun safety.

The James Stuart chapter plans to host a district meeting Saturday, May 4.

DeMolay Week in Illinois has been formally proclaimed by Gov. Richard B. Ogilvie and there have been similar proclamations by Quad-City mayors.

14-21 Age Group
The officials note that the Order of DeMolay "is a character building organization of young men from 14 to 21 years of age who are seeking to prepare themselves as better leaders developing those traits and strengths of character of all good men."

"The organization has carried out the aforementioned goals for over 50 years through programs of athletic competition, social activities, civic service and charitable projects."

"All the DeMolay members will observe 1971 as the 52nd anniversary of DeMolay to exemplify to all citizens their many activities and to show recognition to their millions of Senior DeMolays."

"All citizens are asked to join in saluting the young men of the Order of DeMolay and in expressing our grateful appreciation of the fine examples set by these young leaders in contributing to the welfare and character of other young men in this community, thus aiding in the development and leadership of tomorrow."

GIRL SCOUT TREE PLANTING ceremony at Wilson Park, held traditionally at the close of Girl Scout Week. About 150 Girl Scouts and Brownies from the five neighborhoods of Quad-City District Four participated. Adults shown (left to right) are Mrs. Louise Marlette, district chairman, and Mrs. Clyde Lee and Mrs. Ronald McKee, coordinators of the tree planting program.

Nader Claims Public Defrauded of Billions

Ralph Nader spoke Sunday night to an overflowing audience in Bothwell Chapel on the McKendree College campus, and before the spring rains came that evening, his message thundered loud and clear. Nader told of billions of dollars of fraud being released upon the American consumer each year.

"We have strict laws governing robbery and crimes such as burglary and pickpocketing, but we have almost no protection whatsoever when it comes to consumer fraud," said Nader. "The American public is being cheated on a scale almost beyond belief."

Nader revealed that the level of consumer fraud is 200 billion dollars each year. This is out of the 780 billion that you and I spend. Or in plain cold facts, we are being hoodwinked out of 20% of all the money we spend for consumer goods. Nader cited Sen. H. R. H. of Michigan, chairman of the Senate Antitrust Committee, as the source for these statistics.

One example Nader referred to was the watering down of orange juice. He said that as the juice is processed, the manufacturers add 10 to 15% more water to it. They adulterate the orange juice. This may sound like a small thing, but it adds up to 150 million dollars worth of fraud per year.

Two scouts from each troop in the five neighborhoods took part in the tree planting and the program closed with a song, "When I See You Make A Promise," led by Neighborhood One.

Senior Troop 858 retired the colors and led "Taps."

Neighborhood Three, with Mrs. Pat McKee and Mrs. Lee coordinated the program. Chairmen of the neighborhoods are Mrs. Linda Noud, Neighborhood One; Venice-Madison area; Mrs. Doris Wood, Two, Granite City; Mrs. Vivian Davis, Three, Granite City; Miss Carolyn Votaw, Nameoki area; and Mrs. Wilma McQuinn, Mitchell and Pontoon Beach areas.

Semester in Mexico Offered by Blackburn

A new Semester in Mexico program will be offered by Blackburn College beginning in the 1971-72 academic year, according to Dr. M. Alan Brown, dean.

Qualified students will be able to enroll for the fall semester at the University of the Americas at Puebla, east of Mexico City. Students will pay the normal Blackburn tuition and fees for a semester, which will cover the full costs of transportation and room, board and tuition at the University of the Americas.

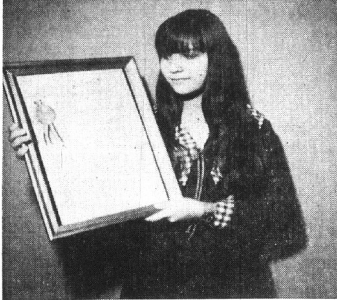

Although the new program is planned particularly for majors in Spanish to give them the experience of living in a Spanish speaking country and to augment their courses in Spanish literature, other Blackburn students who are not Spanish majors will be able to participate. Classes in other departments at the University of the Americas are conducted in English.

Roca Names Members To Committee Posts

Chairmen of standing committees were selected by the Roca Young Men's Club at a meeting Sunday at the Rose Bowl Restaurant.

The members decided to work Saturday for the candidacy of Lionell Portell for street superintendent. Club sweethearts attended the meeting.

DEBORAH KAYE HAND, 14, has been selected as a finalist in the Miss America Teen-Ager Pageant to be held in August in Springfield. Miss Hand was chosen on the basis of scholastic achievement and service to the community.

Deborah Hand A Finalist In State Teen-Age Contest

Miss Deborah Kaye Hand, 14, a freshman at Grigsby Junior High School, has been selected one of the 50 finalists in the 1971 Illinois Miss America Teen-Ager Pageant.

Deborah, the daughter of Mr. and Mrs. John D. Hand, 3801 B St., Pontoon Beach, will compete in the state finals in Springfield, Aug. 27 and 28, in an effort to win the title. If successful, she would advance to the national Miss America Teen-Ager Pageant.

She was chosen as a finalist on the basis of outstanding scholastic achievement and service to her community.

This is not the first time Deborah has been honored in state pageants. Last year she was one of the 16 finalists in the Miss Teen-Age America state pageant and in 1967 she received a special award in a state-wide baby picture contest.

Miss Hand is being sponsored by the Youth Committee of the Chamber of Commerce of the Tri-Cities. The sponsorship pays \$100 toward room and food while in Springfield and for a tiara and a sponsor's banner.

The girls are judged in formal and street attire only. Judging emphasizes scholarship and community participation in selecting a winner.

Fraternity Initiative
Keith Mercer, a son of Mr. and Mrs. Alvin Mercer, 2208 Rock Road, will be initiated into Phi Eta Sigma, national freshman honor fraternity at the University of Missouri in Columbia where he is a freshman majoring in law.

Placed on Dean's List
Dianne F. Westcott of Granite City has been named to the dean's list for the fall semester at Murray State University, Ky.

Venice Girl Receives Reply from White House

Nineteen-year-old Retha Corrie, a daughter of Elmer Corrie, 1238 Robin St., Venice, and a resident of the A. L. Bowen Children's Center in Harrisburg, Ill., is concerned about President Nixon's welfare, particularly his personal safety.

Other patients and residents of the Department of Mental Health undoubtedly are concerned, also, but at least one of them, Retha, took time to do something about it.

She wrote "her president" after viewing a TV news show during which demonstrators were throwing eggs during the fall election campaign.

"I told the President I was sorry to hear about things like this . . . and I'm sorry things like this happen," she related.

"We should be proud of our President," she maintained. A small girl with fiery red hair, Retha continued in her letter: "People should stop, take a look and see what they have at home. 'I'm not very smart but I'm at a good school and am being treated real good. I have a real nice father and I appreciate everything I have. I want

Rhina J. Greer, Charles F. Hall, Felicia Lavern Hughes and Burnette Marie Lewis, 3.0. Sophomores Linda Adams, James Etta Elayne Reed and Dawn E. Woodward, 3.4, Debbie Elaine Foresee, 3.3, Donna Lee Reeves and Robin Ann Sanders, 3.2, Kathleen Ann Werner and Jerry Dragich, 3.1, and Lloyd Peete, Carol Ann Nixon, Debbie Elizabeth Svezia and Sherri Lynn Taylor, 3.0.

Freshmen Cindy Jane Coghlan and Janice Mueller, 3.2, and Joseph Garica, 3.0.

In a discussion with Bowen Chaplain Wilbur Hughey, Retha proudly displayed a framed copy of a reply from the White House to her letter. The reply was from Noble Milencamp, a staff assistant to the president. His letter read: "On behalf of the President, I want to acknowledge and thank you for your letter. Your interest in writing is appreciated and you may be sure that your comments have been carefully noted."

"The president is grateful for your kind personal sentiments and send his best wishes."

"Just think," Retha mused, "this letter came from the White House in a special envelope with that marked on it." She has been a resident at the center since March 1967.

SIU-SW Administrators, Faculty Sound Protests of Master Plan, Phase III

Key administrators and spokesmen for the faculty of Southern Illinois University-Southwestern testified Monday at a public hearing on the third phase of the proposed master plan for higher education in Illinois.

Highlights of their testimony: Andrew J. Kochman, vice chancellor for academic affairs:

"The ideas for the establishment of a state learning resources network, a state system for library development, and a state computer network are enthusiastically endorsed. . . . A general application of the principal of centralization and common market could have an adverse effect on the quality of education in each unit of the state system. Extreme care must be exercised in regard to the curriculum because excellence here depends upon the soundness of supportive and related areas; because education is a subtle blending of learning experiences, the responsibility for education must remain with the faculties of the several state universities."

Howard S. Dye, dean of the School of Graduate Studies and Research:

"The time constraints imposed on SIU-SW in the document appear completely unrealistic when one reviews the logic of the situation. The urban area serviced by SIU-SW is the second largest in terms of population, with immediate and pressing needs, inordinate delays appear almost criminal."

"The statement in the document that SIU-SW needs more time for planning ignores the intensive planning effort already expended by the programs that are already before the Board of Higher Education, the current internship and work-study programs dealing both with disadvantaged and professional people in the community, a growing staff and on-going, quality graduate programs, and strong continuing education and cultural programs in the area."

"During the short life of Southern Illinois University-Southwestern, it has developed rapidly, and has evidenced tremendous capacity to grow. The fact that it faces one of the most complex and problem-plagued environments with facilities and programs far less developed than most of the other graduate centers would seem to demand more, and more immediate, resource allocation to this campus, not less resources allocated later."

George W. Linden, president of the University Senate:

"The basic metaphor of Master Plan III is that a University is a Coke factory. It expresses a philosophy based on word magic and a basic inability to understand higher education. A University is not a factory."

"The faulty value standards which result are an excessive emphasis on central control, translation of quality into quantity, reduction of difference into interchangeability, excessive emphasis upon means with no regard for the ends that could make them meaningful, and justification of the entire system by an irrational standard: necessity. The presumed necessity is either 'monetary' or due to 'oversupply of teachers.' A state which invests in freeways rather than freedom, in bridge interchanges rather than human interchanges, in concrete rather than people, can hardly claim it does not have the resources for 'an expanding educational opportunity.' The so-called 'teacher surplus' is a myth. There is no oversupply of graduates. There is under-investment in education."

W. Deane Wiley, dean, Education Division:

"The plan states that SIU-SW's principal mission to date has been concerned with undergraduate education and 'limited master's degree development.' This apparently is posed as the

rationale for denial of any advanced graduate program requests until 1974. This view of the Southwestern campus is at odds with both the facts and numerous other statements throughout the report."

"Master Plan III is now about to become a reality and its reality supports the Southwestern campus as a doctoral granting institution. The argumentation which proposes a moratorium until 1974 ignores highly significant programs in education at SIU-SW, the base of support for a doctoral program in Education indicated by the significant experience with master's and specialist programs shown above, and the manpower

Laurence R. McAneny, dean, Science and Technology Division:

"No reference is made to the fact that one of the chief characteristics of this area is that it is highly industrialized. It is a subtle blending of learning experiences, the responsibility for education must remain with the faculties of the several state universities."

Emil F. Jason, assistant to the chancellor for academic affairs:

"Special programs (for the disadvantaged) in the State of Illinois are responsible for 40 per cent of the black enrollment in the state universities; they offer hope to the poor, minority, and academically disabled students in higher education. The way toward effecting change in curriculum design and thinking across the board for the total university."

"Yet despite the demonstrated success of special programs, there is a strong feeling among those of us close to such programs that they may be seriously cut back or in some cases eliminated."

William C. Bennewitz, chairman, Graduate Council of the University Senate:

"Our reservations center about a seeming lack of flexibility. We call attention to the enrollment limits. We feel that the determination of the relative numbers of graduate and undergraduate students should be in part an institutional decision. The setting of a fixed date, 1974, before which advanced graduate programs will not be approved for Southwestern seems questionable. We feel that such programs should be considered at the time they are presented and that approval should be based on quality and need. In some areas we do have adequate experience to mount a doctoral program."

Ramona N. Williamson, dean of students:

"The university must concentrate on new programs of continuing education to provide new experiences to those for whom education was previously unavailable by virtue of age, geographic area, or economic or social disadvantage."

"During the 1960's, the public and state officials tended strongly to support higher education. Now it seems as though the 1970's are to be characterized by a much more critical assessment of the direction, control, and support of higher education."

"The problem is likely to get worse before it gets better. In fact, I get the feeling that SIU-SW is being penalized or punished for doing what Master Plan Phase III itself desires."

Arthur L. Grist, director, East St. Louis Center:

"On page 42 of the Southern Illinois University-Southwestern

statement, we read 'the program in the arts also should be implemented.' One can hardly believe this to be true when the Performing Arts and Training Center has performed throughout the nation and also was an exclusive invitee to participate in the White House Conference on Youth, and yet their funds were cut in half and it directly implied that the academic aspect of the program should go to the Community College which, of course, limits the service level, the resource capability, and student access to this particular kind of regional program. . . . to limit her (Miss Katherine Dunham) to a Community College kind of operational base would be wasteful."

William J. Tudor, director of Regional and Urban Development Studies and Services:

"Public service programs do not generate credit hour rates and therefore do not fit into the budgetary procedures. Yet, the economic, social and cultural redevelopment of local areas should and does produce more

income to the state and local governments through improvement in tax revenues. . . . This really is insignificant, however, when one realizes the importance to the people given help through community-service programs. The rehabilitation of a legal individual, organizations and institutions produces a much more satisfying life for our people."

"It is my strong appeal to the Board of Higher Education to find some means to provide the necessary financial support to carry forward our community service and continuing education program."

John Paul Davis, assistant to the chancellor for legal affairs:

"I believe it requires an imagination bordering on hallucination to perceive how a legal education format which is to be 'urban oriented' is to be successfully achieved at Carbondale."

Davis urged the Board of Higher Education to locate the new SIU law school on the Southwestern campus because of its urban orientation.

Warren Joseph, assistant to the chancellor for academic affairs and University representative to the High Education Coordinating Council:

"I would like to call your attention to recommendation 5 which speaks of encouraging the colleges and universities of Illinois to broaden their service as cultural educational centers. It would be my wish to have it appear as a matter of record that Southern Illinois University at Southwestern campus has already taken at least one major step in this direction in the establishment of the Mississippi

River Festival in conjunction with the St. Louis Symphony Orchestra and several communities in our immediate geographic area."

"This activity has probably done as much as any single enterprise to not only broaden the cultural outlook of an entire area in terms of an extremely well-supported program of summer musical-cultural activities, but has also clearly established in the minds of many thousands of area residents the idea that Southwestern is not only a cultural center but a center for innovation and education in the best sense."
